# M&A QUARTERLY | SEPTEMBER 2021

### MARKET SUMMARY

- TEV/EBITDA in Q2 2021 averaged 7.2x, slightly above 6.8x in the previous quarter. This shows a return to historical aggregate pricing in the 7.0x - 7.2x range that had characterized the market since 2017.
- The two industries showing the highest EBITDA multiples through Q2 2021 were technology and distribution, at 8.2x and 7.6x, respectively. EBITDA multiples for all manufacturing companies averaged 7.0x, which is above historical averages of 6.2x.
- On average, larger buyouts continued to receive a premium to EBITDA multiples. The spread in valuation between deals completed in the \$50-\$250 million TEV range compared to deals in the \$10-\$50 million range was 2.1x through Q2 2021, which remains in line with historical averages.
- Recent data is showing an unprecedented gap between companies with above-average financials (TTM revenue growth and EBITDA margins above 10% or one above 12% and the other 8%) and those without; buyouts for businesses with above-average financials averaged 7.8x vs. 5.8x for all others, a premium of 34%, above the already elevated 27% premium in Q4 2020.
- Platform buyouts averaged higher EBITDA multiples than add-ons through Q2 2021, 7.3x compared to 6.3x, respectively, which is in line with historical averages.
- The lending market may be returning to pre-COVID form as total debt levels averaged 3.7x in Q2 2021, which is consistent with average debt load over the past two years.

### WHAT'S NEW AT TAUREAU GROUP

- June Completed valuation assessment for a process systems manufacturing company in the food & beverage, consumer products, and liquid processing industries.
- June Completed the sale of KDV Label Co., Inc. and its sister company, I-Graphics, LLC, to Mason Wells.

The M&A industry, particularly middlemarket transactions, continues to surge thanks to the supply of low- and highyield debt, an abundance of dry powder, low interest rates and soaring valuations. Industry market intelligence shows that M&Arelated leveraged loan issuance stood at a record level in the first half of the year and is expected to continue reaching record highs.
